An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lundell on 9-3-2007.

The application has been amended as follows:

Claim 1 and 17, last line of each after "carrier" - - , wherein said silica gel carrier has a surface area of at most $1,000 \text{ m}^2/\text{g}$ - - has been inserted.

The following is an examiner's statement of reasons for allowance: In addition to the narrow temperature range of 200-300 degrees C used in drying the silica gel carrier giving a higher selectivity in epoxidation, the newly inserted surface area limitation limits the instant carriers to those having lower surface areas than those in the main reference US Patent 6,114,552.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Dentz whose telephone number is 571-272-0683. The examiner can normally be reached on Mon.-Fri. 8AM-4:30PM.
